The rear entrance is wheelchair accessible, and the restrooms are ADA compliant.

All supplies are included. Some class sizes are limited.

Please register at least one week before class, 2 weeks if by mail, unless otherwise specified.

PRINTMAKING MADE EASY with Suzanne Halstead* Older Youth & Adults

Participants will explore simple types of Printmaking Processes. Focus will be on everyday objects - manufactured and organic. We will learn how to design and produce our own unique artworks by using the techniques of raising up or drawing in surfaces. The use of line, shape, color, and texture will be developed while discussing the basics of good composition. This class is designed to encourage individual creative expression through the methods of rubbing, stamping, braying inks, and repeating images.

\$20. per class, per person.

February 1 7:00pm-8:30pm

Please register at least 2 weeks in advance of the date.

EXPLORING ART JOURNALING with Suzanne Halstead* Older Youth & Adults

What is Art Journaling? That discussion will be followed with how to make your own journal and what to put in it! Art Journals can be made in many shapes and sizes and filled with a wide variety of art materials and writing on each page. Come discover your creative energies by constructing your own and fill it with themed images and words that interest you. No two are ever alike! Art Journals are great tools to take with you on trips and vacations, nature explorations, themed events and so much more. Express yourself through this fun and portable art form.

\$20. per class, per person.

February 15 7:00pm-8:30pm

Please register at least 2 weeks in advance of the date.

DRAWING FROM OBSERVATION - PART 1 Older Teens & Adults

Want to learn to draw, loosen up your drawing technique, or just draw faster? This foundation class teaches the building blocks to do that. We will start with beginning exercises to develop eye-hand coordination and then proceed to gesture drawing and drawing objects using charcoal. We will have fun breaking down complex objects into simple forms. Class includes intuitive perspective, sight measurement, and an in-depth study of cylinders, spheres, cones, and rectangular solids.
